Two transgender activists one from the US and another from Guwahati delivered a talk on "Gender, Sexuality & Equality : The LGBTQIA Question from Democratic Viewpoint" on 18th April 2022 at Jonhal College. Hilin Dutta, who hails from the US describes himself as a "transman" who was born in a female body, but transformed himself as a 'male body' with the help of surgery. He described this journey from a girl to a queer activist, and different experiences that he faced in the journey. Another queer rights activists Mr. Kiluparna possesses a male body with a female heart. He loves to dress like a woman, because he feels suffocation with male dress. He too described this courage to reveal one's core self to the outside world. He recited some self-composed poems in the meeting. The principal saluted both the activists for their encouraging life experiences. Queer question is not just an issue of one's sexual orientation, but also a democratic issue. Dr. Bidyut Bora concluded the talk with the remark that in a heterosexual world, their very existence is an act of rebellion.
